

10 June 2019

**KEFI Minerals plc**

**("KEFI" or the "Company")**

**Issue of equity for conversion at 2 pence per share of amounts owing on loan facility and to service providers**

KEFI (AIM: KEFI), the gold exploration and development company with projects in the Federal Democratic Republic of Ethiopia and the Kingdom of Saudi Arabia, announces that it has issued 37,200,000 new ordinary shares of nominal value 1.7p each ("New Ordinary Shares") in the capital of the Company at a price of 2p per share, 22,500,000 of the New Ordinary Shares have been issued in relation to the conversion of £450,000 drawn under the convertible loan facility provided by a longstanding shareholder of the Company which was announced on 28 November and the balance of 14,700,000 New Ordinary Shares have been issued to settle amounts totalling £294,000 owed to third party service providers.

Application has been made to the London Stock Exchange for the New Ordinary Shares to be admitted to trading on AIM with admission ("Admission") expected to occur on or around 14 June 2019.

**Total Voting Rights**

Following Admission of the New Ordinary Shares, the total issued share capital of the Company will consist of 680,767,504 ordinary shares each with voting rights. The Company does not hold any Ordinary Shares in treasury. The total number of voting rights in the Company will, therefore, be 680,767,504 and this figure may be used by shareholders as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change in their interest in, the share capital of the Company under the FCA's Disclosure and Transparency Rules.

**Market Abuse Regulation (MAR) Disclosure**

Certain information contained in this announcement would have been deemed inside information for the purposes of Article 7 of Regulation (EU) No 596/2014 until the release of this announcement.

**Notes to Editor**

**KEFI Minerals plc**

KEFI is focused primarily on the advanced Tulu Kapi Gold Project development project in Ethiopia, along with its pipeline of other projects within the highly prospective Arabian-Nubian Shield. KEFI targets that production at Tulu Kapi generates cash flows for capital repayments, further exploration and expansion as warranted and, when appropriate, dividends to shareholders.

**KEFI Minerals in Ethiopia**

Ethiopia is currently undergoing a remarkable transformation both politically and economically.

The Tulu Kapi gold project in western Ethiopia is being progressed towards development, following a grant of a Mining Licence in April 2015.

The Company has now refined contractual terms for project construction and operation. Estimates include open pit gold production of c. 140,000oz pa for a 7-year period. All-in Sustaining Costs (including operating, sustaining capital and closure but not including leasing and other financing charges) remain c. US\$800/oz. Tulu Kapi's Ore Reserve estimate totals 15.4Mt at 2.1g/t gold, containing 1.1Moz.

All aspects of the Tulu Kapi (open pit) gold project have been reported in compliance with the JORC Code (2012) and subjected to reviews by appropriate independent experts.

A Preliminary Economic Assessment has been published that indicates the economic attractiveness of mining the underground deposit adjacent to the Tulu Kapi open pit, after the start-up of the open pit and after positive cash flows have begun to repay project debts. An area of over 1,000 square kilometres adjacent to Tulu Kapi has been reserved for exploration by KEFI upon commencement of development, with a view to adding satellite deposits to development and production plans.

**KEFI Minerals in the Kingdom of Saudi Arabia**

In 2009, KEFI formed G&M in Saudi Arabia with local Saudi partner, ARTAR, to explore for gold and associated metals in the Arabian-Nubian Shield. KEFI has a 40% interest in G&M and is the operating partner.

ARTAR, on behalf of G&M, holds over 20 EL applications. ELs are renewable for up to three years and bestow the exclusive right to explore and to obtain a 30-year exploitation (mining) lease within the area.

The Kingdom of Saudi Arabia has announced policies to encourage minerals exploration and development, and KEFI Minerals supports this priority by serving as the technical partner within G&M. ARTAR also serves this government policy as the major partner in G&M, which is one of the early movers in the modern resurgence of the Kingdom's minerals sector.
